

McLAREN® NU-AIR® SEMI-PNEUMATIC TYRES

ENGINEERING INGENUITY MAXIMUM PERFORMANCE UNMATCHED DEPENDABILITY

NU-AIR TYRE® series Semi-Pneumatic Tire Technology™

With **Nu-Air®** tires you'll never waste time and money on flats.

Nu-Air integrates the strength and stability of a solid tire with the smooth, cushioned ride of a pneumatic tire. The unique Semi-Pneumatic Technology™ provides shock absorption for maximum performance and machine longevity on and off road. The specially engineered sidewalls are resistant to cuts and snags in severe cutting conditions. The deep lug tread pattern provides more traction, even in snow, sand, or deep mud. Made from heavy-duty rubber compounds, Nu-Air tires last three to five times longer than regular pneumatic tires. Call us today to discuss your needs with one of our professional product representatives at 1-800-836-0040, or visit us on the Internet, at www.McLarenUSA.com.

**Strength, durability, cut resistance.
A cushioned ride even in
the harshest working conditions.**

McLAREN® NU-AIR® SEMI-PNEUMATIC TYRES

THE FUSION OF STRENGTH AND COMFORT

REVOLUTIONIZING THE INDUSTRY

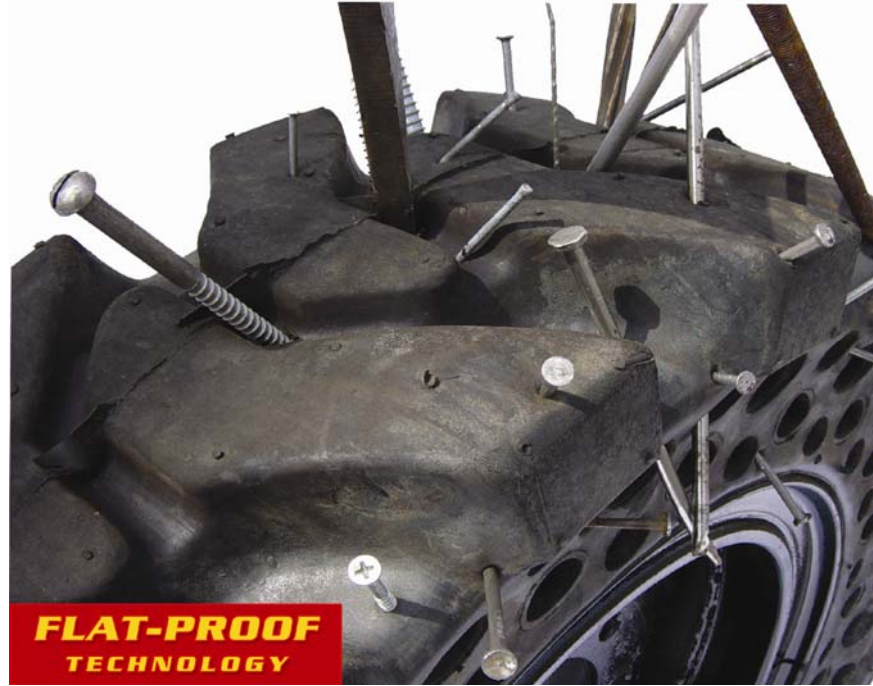

McLaren is known throughout the industry as a pioneer in track and tire research and development. We are proud to present our new line of heavy-duty, all purpose tires. Designed with our cutting-edge Semi-Pneumatic™ technology, McLaren's Nu-Air tire is the pinnacle of a new generation of tires, which are superior in every aspect to the existing pneumatic, foam-filled, or solid tires. Nu-Air is engineered to deliver the durability of solid tires and the soft and cushioned ride of pneumatic tires – all in one product! Nu-Air tires are the new alternative that will revolutionize the industry.

NU-AIR: BUILT TOUGH

You want durability and strength? Nu-Air delivers. Manufactured from heavy-duty rubber compounds, Nu-Air tires are designed to withstand the harshest working conditions and the most massive loads. These all-terrain tires provide maximum performance both on and off road, even in severe cutting conditions. The specially engineered sidewalls are resistant to cuts and snags, ensuring that you'll never lose valuable time and money due to tire punctures again. The deep lug pattern is designed to provide unrivaled traction in snow, sand, or deep mud.

THE UNION OF DURABILITY AND CUSHIONING

Nu-Air tires integrate the strength and stability of a solid tire with the smooth, cushioned ride of a pneumatic tire, assuring supreme comfort and control for the machine operator and maximum performance and longevity for the machine itself. Test have shown that Nu-Air tires have three to five time the life expectancy of a pneumatic tire, and lasts thousands of hours with zero downtime. These tires are built tough for unmatched dependability and wear resistance, resulting in a dramatic increase to your bottom line. And, as with all McLaren products, we guarantee 100% customer satisfaction.

Semi-Pneumatic Tire Technology™ provides:

- 3 to 5 times the life expectancy of pneumatic tires
- Smooth air-cushioned ride
- Zero downtime from flats
- Exceptional performance on and off road
- Shock absorption to prevent skid loader damage
- Rim included for easy installation
- Works well with over-the-tire tracks
